# BRAIN STORMING

range of  
challenges  
many  
need to  
be addressed  
at once

at the  
very walls,  
in height

GCS

INC-GCS  
e-holiday  
wall  
(as  
updated)

TOW  
and  
other

These are displays  
that are actually  
non-interacting  
but seem to  
be interacting

Display not  
all out of sync  
or non-interacting  
but need to  
be separate  
from other

Display not  
all out of sync  
or non-interacting  
but need to  
be separate  
from other

Display not  
all out of sync  
or non-interacting  
but need to  
be separate  
from other

Not all  
signals  
are from  
the same  
place

Display  
not  
all out  
of sync  
or non  
interacting  
but need  
to be  
separate  
from other

Display  
not  
all out  
of sync  
or non  
interacting  
but need  
to be  
separate  
from other

Display  
not  
all out  
of sync  
or non  
interacting  
but need  
to be  
separate  
from other

Display  
not  
all out  
of sync  
or non  
interacting  
but just a TV in  
a window.

Display  
not  
all out  
of sync  
or non  
interacting  
but just a TV in  
a window.

Display  
not  
all out  
of sync  
or non  
interacting  
but just a TV in  
a window.

Display  
not  
all out  
of sync  
or non  
interacting  
but just a TV in  
a window.

Display  
not  
all out  
of sync  
or non  
interacting  
but just a TV in  
a window.
